Managed website services

Trusted by recruitment agencies across *100+ countries* globally
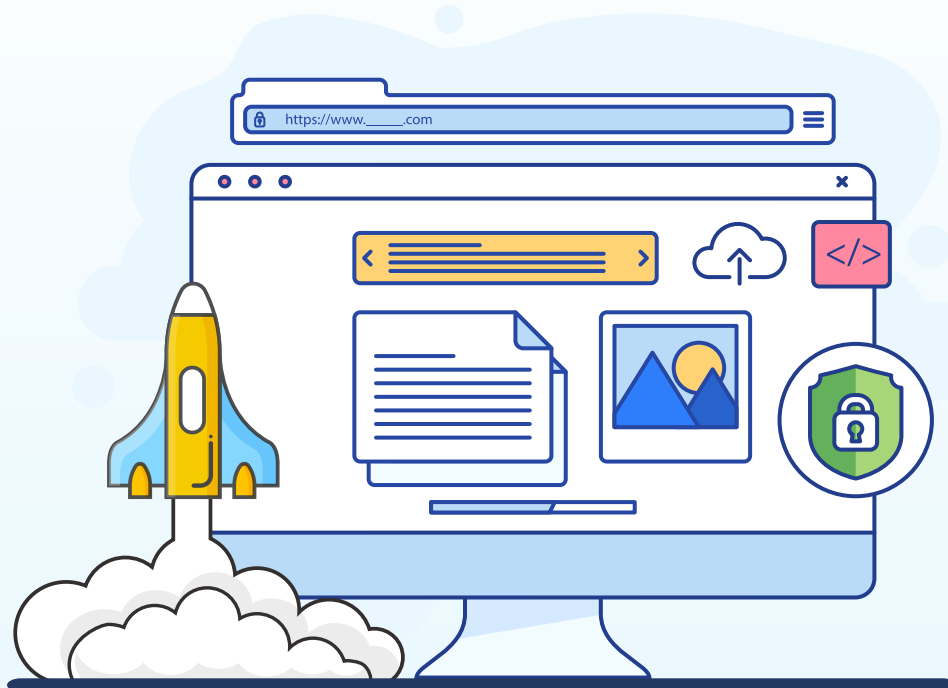

INDEX

INTRODUCTION

We are thrilled to introduce our latest offering – the **"Managed Website Service,"** designed to cater to the needs of our valued customers. This comprehensive package includes personalized assistance from our Solutions Team to seamlessly integrate the API-powered jobs/careers page onto your existing website.

The API-powered jobs/careers page enables you to streamline hiring, attract top talent, and effectively showcase your company's culture and values.

We understand that every business is unique, and our Solutions Team works closely with you to tailor the jobs/careers page to match your brand's aesthetics and requirements.

From design customization to feature implementation, we strive to build a seamless user experience that makes your website resonate with your overall branding and objectives.

With our team's dedicated support, you can focus on your core business activities while we take care of the technical aspects of implementation, ensuring a smooth and hassle-free experience for you and your squad!

INTEGRATION MADE SIMPLE

1. Streamlining integration without the need for a developer

Our "**Managed Website Service**" offers a significant advantage to companies by eliminating the need for a dedicated developer to integrate the API-powered jobs/careers page.

We understand that not every business has an in-house development team or the resources to hire one. Our service bridges this gap, enabling companies to achieve seamless integration without specialized technical expertise.

2. Time-saving solution

Time is essential for any business, and our service is designed to save our customers a significant amount of it.

By choosing our service, businesses can entrust the integration process to our proficient solutions team. We handle the technical details efficiently, freeing our customers to focus on their core activities. This saves both valuable time and effort, streamlining the overall process.

3. Expertise in API development

Our team of developers is highly skilled and experienced in working with APIs. They possess in-depth knowledge of the functionalities and scope of API development, ensuring optimal functionality and user experience for our customers.

EXPLORE OUR INTEGRATION OPTIONS

Note: Both basic and full integrations allow complete customization of the job listings page. However, the differences are mentioned below. These integration options provide flexibility and customization for displaying jobs on your website, allowing you to choose the approach that best suits your requirements.

Basic integration	Full integration
This package comprises solely an API-powered job listing page. The default jobs page provided by Recruit CRM will be utilized for the job description page and the job application form.	This package comprises a custom job listing page, a job description page, and a job application form, all of which will be hosted on your website.
Candidates are redirected to Recruit CRM's default application form upon clicking the "Apply" button or job name	Candidates stay on your website domain when clicking the "Apply" button or job name (they are not redirected to Recruit CRM).
The job application form remains the same for all listed jobs.	Application forms are customized (up to 3 forms) based on specific job categories or years of experience.
Examples: • Onyx Circle	**Examples:** • Paul Newstone • Recruit CRM

ESTIMATED TIME FOR INTEGRATION

Basic integration:

Approximately 40 hours, equivalent to 1 week of work (excluding weekends)

Full integration:

Approximately 80 hours, equivalent to 2 weeks of work (excluding weekends)

P.S: The provided timeframes are estimates and may vary depending on specific project requirements and complexities. Our team works diligently to ensure the timely completion of the integration process while maintaining the highest quality standards.

ADVANTAGES OF USING RECRUIT CRM'S MANAGED WEBSITE SERVICES

1. Seamless API updates

With our "Managed Website Service," any changes made to our API are promptly implemented for your website. Our solutions team ensures that your integration remains up-to-date and in sync with the latest API functionality, providing an immaculate experience for your job listings.

2. Improved load time & reduced candidate drop-offs

By leveraging the expertise of our solution team's backend services, the time required to display 100 jobs on your website is reduced significantly to less than 500 milliseconds!

Without our backend services, loading the same number of jobs could take as long as 7-9 seconds. By optimizing the load time to a mere fraction of that, we enhance the user experience and minimize the chance of potential candidate drop-offs.

3. Dedicated resource

You are assigned a dedicated resource from our team, who serves as your point of contact and is available to address your queries and provide support whenever needed. This personalized attention ensures that you receive prompt assistance and a smooth communication channel for any concerns or requests.

4. In-depth API knowledge

Our engineers, who are also part of our solutions team, possess extensive API knowledge. This familiarity with the API allows for easier and more efficient management of modifications or customizations to your careers page.

DON'T MISS OUT ON THIS INFORMATION!

- **Limited scope:** It is important to note that our service focuses specifically on integrating and managing the jobs/careers page on the customers' existing websites. **We shall not be responsible for developing or managing the entire website.** Our services focus solely on the jobs/careers page at the designated URL.

- **Recurring service:** Our "Managed Website Service" is a recurring service with an annual renewal. **This means that customers will be charged a fixed fee for the service, depending on the option they choose (basic or full integrations).**

Seize this chance to optimize your recruitment process and craft an irresistible online presence that speaks to potential candidates!

With our "**Managed Website Service**," you're not just adding a jobs/careers page; you're unlocking a new level of efficiency and appeal.
